Grow

With WiCyS Student Chapters

Gather together your school's community of students in cybersecurity! Your efforts can help decrease the gender disparity in the field, while providing support, mentorship, training, networking opportunities and access to industry and academic leaders.

You'll undertake activities to promote recruitment, retention and advancement of women students in cybersecurity. At least one Chapter representative will be awarded a student scholarship to attend the WiCyS Annual Conference to share your Chapter's experience. Through the annual WiCyS Chapter report, you'll share information helpful to others about your activities.

QUOTABLE
"This year I was able to establish many business connections and job opportunities, even a few that I had not thought to pursue before."

BENEFITS

← Receive priority to learn about student opportunities (scholarships, internships, REUs, job resources, etc.) through the WiCyS student chapter mailing list

← Gain an opportunity to present at the WiCyS Annual Conference about the student chapter experience and achievements

← Learn leadership and technical skills

← Obtain priority for WiCyS scholarships as a chapter member

← Receive a WiCyS-approved Student Chapter logo to use in signage, promotions and business cards

← Participate in the WiCyS Online Student Chapter Community Forum

FACTOID
The information security profession is growing at a rate of 36.5% through 2022
U.S. News and World Report

Women in CyberSecurity (WiCyS) is the premier organization with national reach dedicated to bringing together women in cybersecurity from academia, research and industry to share knowledge, experience, networking and mentoring.

Initiated in 2013 by Dr. Ambareen Siraj of Tennessee Tech University through a National Science Foundation grant, WiCyS has become a non-profit organization offering many benefits for its members.

The WiCyS Conference is an excellent opportunity for companies to connect with women students and professional candidates to recruit them into cybersecurity jobs! More than half the attendees are students seeking opportunities who have been accepted through the WiCyS scholarship program that sponsorships help to support.
