CYBERSECURITY
VENTURES

Women in CyberSecurity (WiCyS) is the premier organization with international reach dedicated to bringing together women in cybersecurity from academia, research and industry to share knowledge, experience, networking and mentoring.

Initiated in 2013 by Dr. Ambareen Siraj of Tennessee Tech University through a National Science Foundation grant, WiCyS has become a non-profit organization offering many benefits for its members.

The WiCyS Conference is an excellent opportunity for companies to connect with women students and professional candidates to recruit them into cybersecurity jobs! More than half the attendees are students seeking opportunities who have been accepted through the WiCyS scholarship program that sponsorship help to support.
