With WiCyS Student Chapters

Gather together your school’s community of students in cybersecurity! Your efforts can help decrease the gender disparity in the field, while providing support, mentorship, training, networking opportunities and access to industry and academic leaders.

You’ll undertake activities to promote recruitment, retention and advancement of women students in cybersecurity. At least one Chapter representative will be awarded a student scholarship to attend the WiCyS Annual Conference to share your Chapter’s experience. Through the annual WiCyS Chapter report, you’ll share information helpful to others about your activities.

**BENEFITS**

- Receive priority to learn about student opportunities (scholarships, internships, REUs, job resources, etc.) through the WiCyS student chapter mailing list
- Learn leadership and technical skills

**QUOTABLE**

"WiCyS is a community of transformative change. Starting a WiCyS student chapter provided me with leadership, management, and communication skills that are vital for anyone looking to solve some of the world’s most complex challenges - crucial for the cybersecurity field especially. I’m so grateful to have found a community of fascinating, intelligent, and innovative friends not just within my chapter, but all over the world through WiCyS."
