2014

National Science Foundation (NSF) funded Dr. Ambareen Siraj from Tennessee Tech University for the first-ever Women in CyberSecurity Conference.

2015

With the grant funding, WiCyS was to engage 250 women in 2 years. After the 2015 conference, WiCyS exceeded those expectations by reaching over 900 attendees in 2 years.

2016

Now impacting over 1.7K women in cybersecurity, the WiCyS community continued to grow rapidly.

2017

Dr. Siraj created the WiCyS organization to engage the WiCyS community in year-round initiatives and sustain the project beyond the NSF grant cycle.

2018

WiCyS became a member based 501(c)(3) nonprofit organization!

2019

The expansion of the organization continues and WiCyS launched Job Board ++, professional affiliates, student chapters, speakers bureau, veterans assistance program, and more.

2020

Global growth increased with representation in over 70 countries. WiCyS added virtual summits, skill development training programs, military spouse assistance, veterans' apprenticeship program, mentor/mentee program, and more.

2021

WiCyS continues to SUSTAIN and SCALE through multiple employer collaborations and the vested interested of WiCyS members.

2022

#WiCyS2022 hashtag reached 16 Million!

INCLUSIVE LANGUAGE

Language is used every day without truly understanding the whole meaning of the phrases or the origins of our words. In recent years, there has been an increased awareness in the United States to understand better the phrases we use and how they have impacted marginalized communities today. Various industries are introducing *inclusive language* for their cybersecurity teams to transition to and incorporate in their roles.

This *inclusive language* resource is an ongoing document drafted by the WiCyS Racial Equity Committee for others to share with their cybersecurity teams. This collective effort will help shape the industry into one we can all be proud of as we move forward together.

INCLUSIVE MENTORING

Inclusive mentors are necessary to cultivate the space of respect and growth for women in cybersecurity to advance in their careers. Within the WiCyS Mentoring Cohort program, inclusive mentors selflessly commit their time, attention and focus on their mentee's success. WiCyS provides a curriculum that focuses on interpersonal and intrapersonal skills critical to gain influence in the workforce. The cohort and inclusive mentors provide the heart and soul.

SEVEN STEPS FOR INCLUSIVE MENTORING

- Create a safe space
- Don't impose your views
- Listen and facilitate
- Trust before everything else
- Engage everyone
- Be authentic and vulnerable
- CELEBRATE!!!!

1

Create a safe space: Inclusive Mentors enter the space of the cohort with an understanding that everyone is always working and growing personally and professionally (including themselves). They ensure that non-judgment, equity and allyship are exhibited throughout their sessions and lay the foundational groundwork of mutual respect.

2

Don't impose your views: Inclusive Mentors take the time to relate to the mentee and find commonalities in interests and perspectives. They respect their mentees' points of view and celebrate the uniqueness of any differences.

3

Listen and facilitate: Inclusive Mentors are facilitators of the mentor/mentee cohort conversation. They listen, pay attention and take notes while honoring everyone's unique experiences. Through genuine interest and curiosity, inclusive mentors are the conduit to the cohort and help establish long-term sustainable relationships amongst the cohort participants. The goal is not to advise but to facilitate productive conversations.

4

Trust before everything else: Inclusive Mentors bring out the best in their mentees by establishing trust. Trust-building takes time but every step counts along the way. Inclusive mentors use preferred pronouns, pronounce names correctly and identify if someone would like to be addressed otherwise. They devote their time and attention to building trust and never deviating.

5

Engage everyone: Inclusive Mentors pay attention and are equitable to all mentees within the cohort. They listen, allow equal speaking time, and minimize their own speaking time. Inclusive mentors never cut anyone off and encourage others to share their experiences in the conversation.

6

Be authentic and vulnerable: Inclusive Mentors are authentic about their professional growth by sharing the grit and the glory (when appropriate). Inclusive mentors show up with their guard down; they leave judgment at the door and open up to vulnerability themselves. They acknowledge the power of navigating through the sometimes confusing cybersecurity career ecosystem and honor the journey along the way.

7

CELEBRATE: Inclusive Mentors celebrate their mentee's personal and professional wins and recognize accomplishments along the way. They are their mentee's #1 champions and through these celebratory actions, encourage all mentees to champion one another throughout the program and in ongoing friendships.

TOGETHER, WE THRIVE!

The **DIVERSITY** of Thought

Let's climb this mountain together...

and as one woman rises, let's give the grace and space
for others to rise as well

Grow with us.
