3.4 million Unfilled Cybersecurity Roles

24% Women in Cybersecurity
WiCyS Timeline

2014
WiCyS reaches over 900 attendees in the first 2 years of the conference.

2015
Dr. Ambareen Siraj receives NSF funding for the first-ever Women in CyberSecurity Conference.

2016
WiCyS reaches 1.7k women.

2017
WiCyS organization created. Year round initiatives begin.

2018
WiCyS launches Job Board++, Professional Affiliates, Student Chapters, Speaker’s Bureau and Veteran’s Programs.

2019
WiCyS becomes 5013c member based organization.

2020
WiCyS pilots Skills Development Training, Mentor/Mentee Program and Virtual Summit.

2021
WiCyS continues to sustain and scale through employer collaborations and vested interest of WiCyS members.

2022
#WiCyS 2022 reaches 16 million!

2023
WiCyS grows to: 8100 members 224 student chapters 85 countries 67 strategic partners 62 professional affiliates.

2024
Next conference: April 11-13 Nashville, TN!
“At the WiCyS Conference, we demonstrate DIVERSITY not by pointing out the problem, but by SHOWCASING a spectrum of talent from a diverse group of professionals.”

- Dr. Ambareen Siraj

WiCyS Security Training Scholarship

One journey started...
One year invested...
One career elevated...

CYBERSECURITY
The WiCyS Security Training Scholarship experience has been unlike anything I have experienced in my life. I have gained an incredible support system, and access to hundreds of resources, and have the honor of taking classes with SANS, the most respected cyber training program in the world. This opportunity has given me a clear path forward to enter the field with confidence knowing that I will not be on this journey alone.

**INCLUSIVE LANGUAGE**

Language is used every day without truly understanding the whole meaning of the phrases or the origins of our words. In recent years, there has been an increased awareness in the United States to understand better the phrases we use and how they have impacted marginalized communities today. Various industries are introducing inclusive language for their cybersecurity teams to transition to and incorporate in their roles.

This inclusive language resource is an ongoing document drafted by the WiCyS Racial Equity Committee for others to share with their cybersecurity teams. This collective effort will help shape the industry into one we can all be proud of as we move forward together.

**INCLUSIVE MENTORING**

Inclusive mentors are necessary to cultivate the space of respect and growth for women in cybersecurity to advance in their careers. Within the WiCyS Mentoring Cohort program, inclusive mentors selflessly commit their time, attention and focus on their mentee’s success. WiCyS provides a curriculum that focuses on interpersonal and intrapersonal skills critical to gain influence in the workplace. The cohort and inclusive mentors provide the heart and soul.

**SEVEN STEPS FOR INCLUSIVE MENTORING**

1. **Create a safe space:** Inclusive Mentors enter the space of the cohort with an understanding that everyone is always working and growing personally and professionally (including themselves). They ensure that non-judgment, equity and allyship are exhibited throughout their sessions and lay the foundational groundwork of mutual respect.

2. **Don’t impose your views:** Inclusive Mentors take the time to relate to the mentee and find commonalities in interests and perspectives. They respect their mentees’ points of view and celebrate the uniqueness of any differences.

3. **Listen and facilitate:** Inclusive Mentors are facilitators of the mentor/mentee cohort conversation. They listen, pay attention and take notes while honoring everyone’s unique experiences. Through genuine interest and curiosity, inclusive mentors are the conduit to the cohort and help establish long-term sustainable relationships amongst the cohort participants. The goal is not to advise but to facilitate productive conversations.

4. **Trust before everything else:** Inclusive Mentors bring out the best in their mentees by establishing trust. Trust-building takes time but every step counts along the way. Inclusive mentors use preferred pronouns, pronounce names correctly and identify if someone would like to be addressed otherwise. They devote their time and attention to building trust and never deviating.

5. **Engage everyone:** Inclusive Mentors pay attention and are equitable to all mentees within the cohort. They listen, allow equal speaking time, and minimize their own speaking time. Inclusive mentors never cut anyone off and encourage others to share their experiences in the conversation.

6. **Be authentic and vulnerable:** Inclusive Mentors are authentic about their professional growth by sharing the grit and the glory (when appropriate). Inclusive mentors show up with their guard down, knowing that the incident at the door and open up to vulnerability themselves. They acknowledge the power of navigating through the sometimes confusing cybersecurity career ecosystem and honor the journey along the way.

7. **CELEBRATE:** Inclusive Mentors celebrate their mentee’s personal and professional wins and recognize accomplishments along the way. They are their mentees’ #1 champions and through these celebratory actions, encourage all mentees to champion one another throughout the program and in ongoing friendships.

**TOGETHER, WE THRIVE!**

This document provided through contributions of the WiCyS Racial Equity Committee and WiCyS Mentor/Mentee Committee.

www.wicys.org
**HOW TO BE AN ALLY FOR WOMEN IN CYBERSECURITY**

Allyship is empathy in action. As allies, we learn about people’s unique experiences, show empathy for them, and take action in support.

The following are essential actions for WiCyS allies to practice at our events, in your workplace, and in your communities.

**HOW TO BE AN ALLY IN 5 STEPS**

1. **Learn, unlearn, relearn.** As allies, we build understanding and show empathy for women in cybersecurity. We pay attention to women’s ideas. We seek to learn more about their unique identities and experiences. We also practice humility and recognize where we might have more to learn. We are open to unlearning what we thought we knew and relearning with a new perspective.

2. **Do no harm.** As allies, we work to ensure we are not harming people through acts of exclusion like biases and microaggressions. We pause and check our assumptions before we speak or act. We avoid centering our own experiences as the norm. We also move past any fears we might have to take action as allies.

3. **Advocate for people.** As allies, we are mentors, sponsors, and champions for the women around us. We open our networks, lend our power and influence, and give women new opportunities. We counter exclusion by actively showing we trust women, growing their confidence, and amplifying their voices and ideas.

4. **Stand up for what’s right.** As allies, we intervene when we witness biases, microaggressions, or other harm toward a woman. We interrupt interruptions, make space for women in conversations, and pause to acknowledge harmful words and actions. Rather than shaming, we call people in to learn, creating a safe space for everyone to grow.

5. **Lead the change.** As allies, we model allyship and encourage other people to become allies. We investigate our day-to-day work and take action to become more equitable, inclusive, and accessible. When we notice systemic inequalities, we work to change them. We share our learning journey and normalize allyship in the workplace.

WiCyS is taking the lead on building allies in cybersecurity, and we’re excited for you to join us.

Thank you for leading the change to transform our WiCyS community and our industry.

---

**WICYS INCLUSIVE LEADERSHIP**

Inclusive leaders pave the way to create inclusive and equitable workplaces for women in cybersecurity.

**6 INCLUSIVE LEADERSHIP ACTIONS**

1. **Lead with empathy.** Use curiosity to understand each woman’s unique experiences, show empathy and respect for their experiences, and support them. Build team empathy through informal gatherings, DEI learning sessions and conversations where they genuinely get to know each other and don’t talk about work.

2. **Create safe team environments.** If women don’t feel safe or respected by team members, they’re less likely to take risks and contribute. Stand up for what’s right and intervene when you observe or learn about exclusion. Intervene, interrupt, ensure full inclusion in conversations and build trust between team members.

3. **Recognize ideas and achievements.** Actively listen to women’s ideas and ensure they receive credit. Publicly acknowledge contributions to projects and career accomplishments. Show you trust women’s expertise by seeking their advice, contributions and leadership.

4. **Provide valuable feedback.** Women, especially women of color, tend to receive lower-quality feedback. This limits their ability to develop skills as leaders. Provide career-improving feedback on presentations and projects, as well as one-on-one’s and annual reviews.

5. **Support professional development goals.** Be transparent about the specific actions needed for promotions and raises. Check progress together in one-on-ones and reviews. Provide stretch assignments, speaking roles and leadership opportunities. Be their champion and recommend them for new opportunities.

6. **Improve systems, processes and cultures.** Pursue opportunities to improve systems, processes and cultures to be more inclusive and equitable for women. Collaborate with diverse men and other leaders to assess and make improvements together.

WiCyS is taking the lead on building allies in cybersecurity, and we’re excited for you to join us.

Thank you for leading the change to transform our WiCyS community and our industry.
Let’s climb this mountain together...

and as one woman rises, let’s give the grace and space for others to rise as well.
